## ForsythCableNet

A DIVISION OF PUBLIC SERVICE COMMUNICATIONS

Forsyth CableNet is an industry leader among rural broadband providers delivering its business customers the best communications services needed to stay competitive in today's business environment. We offer a secure and reliable network with unlimited usage and internet speeds up to 30 Mbps. Our Voice over Internet Protocol (VoIP) phone services consisting of 12 features will enhance your business to run more effectively and efficiently. Also, choose from one of our competitively priced TV packages to keep your customers entertained and informed with the latest in news, weather, and sports programming. Forsyth CableNet is a company comprised of professional installers, expert representatives, and outstanding customer service dedicated to bring your business the highest quality service available.

## PhoneServices

Talk over your internet connection and save! Local and long distance calling with voicemail and more! Available as an add-on to any Forsyth CableNet high speed internet or cable television plan.

### **\$29.99/month includes:**

- 12 Calling Features.
- Unlimited Local Calling.
- Large calling area covering over 100 counties in Georgia.
- Rates as low as 5¢ per minute for all long distance calls to anywhere inside the continental United States.
- Porting your business phone number is easy and available in most areas, or we can provide you with a new number.
