

Logo Design Request

I am looking for a bold, stylish CREST LOGO design for my company's product line of wig stands called Wig Chateau. Wig Chateau are a premium brand of elegant, wig storage products that support the lifestyle of wig wearers.

The three principles of Wig Chateau are Style, Storage and Functionality. I want the designer to creatively incorporate these three principles into our Crest Logo using either the words "Style, Storage, Functionality" (maybe banner style in English or French), or using designs/pictures that represents style, storage and functionality. Our tag line is "You Gave Them A Name Now Give Them A Home". The tag line does not necessarily have to be incorporated into the logo.

Our brand name "Wig Chateau" or the letters WC needs to be included. It needs to exude elegance, sophistication, and style. I want an elegant, feminine Crown symbol/picture on or within the Crest logo. Wig Chateau Wig Stand has a crown attached so we envisioned having a picture of our wig stand inside a Crest but the crown shows just outside the borderline of the top of the Crest giving the appearance of a slight separation between the top of the pole on the wig stand and the crown that goes on top of it.

Our current logo design with tag line:

Example of someone else's crest logo design:

I have included photos of our product and a video link <http://kck.st/1Ln7KWZ> to provide a better understanding of the product and its essence. We DO NOT SELL OR MAKE WIGS.
