TERRAKOAT **EXT**

INDUSTRIAL STRENGTH STABILIZER

SOIL * DECOMPOSED GRANITE * SAND * AGGREGATE

TerraKoat International is dedicated to creating durable, natural & cost effective paving products that can be applied over virtually any existing surface. For new construction our paving systems can be applied directly over compacted road base saving time and material costs. TerraKoat International's paving systems can also be applied over your existing asphalt, concrete or natural soil pathways eliminating demolition costs.

TerraKoat International was born with the intention of creating an earth friendly

paving system that not only looks beautiful but is extremely durable, cost effective and easy to maintain.

You will not find a better natural paving system anywhere at any price period!!

Great for new installations or restorations of Decomposed Granite Pathways, Patios, Garden areas and more. TerraKoat EX Decomposed Granite Stabilizer is a great alternative to traditional paving materials such as asphalt or concrete. When mixed into Decomposed Granite and compacted, TerraKoat EX allows you create a natural ADA compliant paving system that is not only durable but it looks great. The combination of TerraKoat EX and Decomposed Granite creates a strong reinforced surface that greatly reduces surface erosion.

Some of the benefits Of TerraKoat EX

-
- * Easy no mess application.
- * Reduces dust, gravel migration and erosion.
- * Allows the use of Patio/Pathway year round.
- * No special tools or skills required to build.
- * Build using local aggregates.
- * Will not harm plants or aquatic life.
- * EPA-compliant.
- * Earth Friendly & Biodegradable

Coverage for a new installation is 15 square feet per gallon using a 2" aggregate thickness.

Maintain the beauty of your Decomposed Granite while extending the life of your Decomposed Granite with DG-RainKoat.

DG-RainKoat is a spray on weather shield that protects decomposed granite or any other landscape surface from winter weather conditions.

If you have a Decomposed Granite Pathway, Patio or Driveway. DG-RainKoat is an absolute must have. The beauty and natural look of a Decomposed Granite Garden Path, patio, trails or driveway is undeniable. They look fantastic. But when the rainy season comes along your beautiful DG starts to wash away and the the surface begins to erode. DG-

RainKoat puts a protective shield over your DG that not only limits the of moister that soaks into the DG. It also reduces the impact damage caused by heavy rains.

Some of the benefits of DG-RainKoat

- * Great coverage 100 sqft per gallon.
- * Easy to apply using a pump type sprayer.
- * Anyone can apply, No contractor needed
- * Reduces dust, gravel migration and erosion.
- * No special tools or skills required to apply.

- * Protects any outdoor surface not just DG.
- * Will not harm plants or aquatic life.
- * EPA-compliant.
- * Earth Friendly & Biodegradable
