

WWW.HOOKEDFISH.CO.UK

Hooked Method Mix is an all in one, high protein, high feed, particle based groundbait, containing proven fish attractants. Creates a carpet of crushed particles and attractants to draw fish to your swim and hold them for longer periods.

Mixing Instructions

For best results:

- 1 - Empty dry product in a round mixing bowl, add any additional dry ingredients and blend thoroughly.
 - 2 - Add any liquid additives and water slowly whilst mixing, until the desired consistency is achieved. Ensure all the dry product is damp.
 - 3 - Allow to rest for 10 minutes for all water to be absorbed. Add any further water at this point if required.
-
