Coaching

Certified Professional Coaching

Individual, customized, affordable coaching for **Education, Career, Life and Leadership Transitions** at varied stages of life and career challenges, to support achievement of personal and professional goals. We work with you in person, or flexibly by phone, email, Skype. It is simple to get started! Just contact us and we will customize affordable services and schedule adapted to your goals.

Career & Leadership Connections

Group Coaching and other program offerings can help build your network, while reducing the costs of individualized coaching, to proactively achieve your goals. Professionals exchange insights on career and organizational change management using a "CoHero" team assessment for innovation and change, providing mutual support as a team.

Resumes, Covers, Interview Prep

Your Professional Documents are customized, so we offer the expertise of **Professional Resume Writers** and **Executive Recruiters** to prepare you for **Interviews** so you may land your next job! Individualized coaching fees may vary.

Professional Branding/Portfolio

Websites and Social Media Presence are a necessity for contemporary job search, business development, and entrepreneurship. Consultants are ready to help you develop a web-based **Professional Portfolio to Market YOU**, your project or start-up enterprise.

Programs

CareerEcologia Community Course

21st Century Career & Leadership Development Course is delivered online with a team of certified coaches plus international, interdisciplinary forum of professionals to help you get connected. We use easy, flexible technology to allow you to participate anytime, anywhere you connect to the internet! Course may be customized for varied curricula to integrate entrepreneurial motivation that supports achievement of individual, educational and/or organizational goals.

Workshops/Seminars/Networking

There is really nothing like meeting in person to combine benefits of coaching and networking with other professionals. We offer customized workshops for organizations and will help you cultivate vital networks related to your career and leadership goals. We often host regional experts for networking events on contemporary issues impacting careers and leadership from urban to rural communities.

Experiential/ Leadership Projects

Experience is the best teacher for our Next Generation Professionals and Leaders. We work with top educational institutions and partner with local leaders on projects focused on sustainable solutions building. **Do you have a project that could use fresh creative energy and skill? Are you seeking a project focused in sustainability to build expertise?**

Simply send your letter of interest, project description &/ or resume to: careerecologia@icloud.com
