Why?

- Provide better pricing and service to your patients
- Get a fast 24-48 hour turnaround on results
- Fast HIPAA compliant patient order management system
- Generate additional revenue streams for your facility
- Offer additional advanced testing at discounted pricing
- Over 8,000 different tests and panels available
- Access to over 4000 Patient Facilities

Steps:

1. Sign Up
2. Log into the system
3. Place test order
4. Receive results and treat patients

How It Helps:

1. Provides wholesale pricing to your non-insured or cash pay patients to help them save money
2. Removes the lab testing price barrier for patients who want another procedure that requires tests
3. Include the testing as part of your packaged procedures or program and generate additional revenue
