

WHEN IT COMES TO YOUR NEXT CROWN OR VENEER, THE BENEFITS OF A DIGITAL RESTORATION ADD UP QUICKLY.

A same-day
restoration

+

A stronger,
more precise fit

+

A beautiful,
natural appearance

+

A relaxing
patient experience

Are you ready for a dramatically
improved experience with your
next crown, bridge or veneer?

Safe Area for Logo and Address

GOOD-BYE
TEMPORARY
CROWN.

GOOD-BYE
SECOND VISIT.

GOOD-BYE
GOOEY TRAY.

2 HOURS INSTEAD OF 2 VISITS.

Introducing crowns, veneers and bridges that happen in hours instead of days – no more temporaries, no more multiple visits, no messy dental impressions.

Ask your dentist if a same-day restoration is right for you.

Same-Day Dentistry

Life is busy enough without having to make multiple trips to the dentist over several days. Now with digital dentistry you get lab-quality restorations in a single visit. First, we scan your tooth rather than take a conventional impression. Next, a custom restoration is designed to fit your unique smile. Then, your crown, filling or veneers are created with a state-of-the-art milling unit right in our office. The final restoration is placed in your mouth the same day.

Digital Scans

The digital scanner uses state-of-the-art laser technology that is not only extremely precise but also as safe as the checkout scanner at the grocery store. Unlike conventional impressions that can be messy, unpleasant and cumbersome, a digital scan is clean, fast and comfortable.

Beautiful Results

The benefits of digital restorations go beyond same-day convenience. Your restorations will also look and feel completely natural. Digital precision means a perfectly comfortable fit. And, aesthetically, your metal-free restoration will match the look of your teeth for a beautiful, natural smile.
