

PREMIER CNC PROPELLER MANUFACTURER

RACE OR PLEASURE...
FINISH FIRST.

Not sure of the exact pitch you need? Don't let that hold you back from ordering a new set. We now offer a 2-week test period from the date of delivery. If your propeller selection was high or low on the pitch based on our recommendation, we will exchange your propeller(s) for a new set with the correct pitch. Call for details or check out our website for more information.
