ABOUT
Gain One, Give One
GOGO soap is not just another soap you pick up at the store. Our natural soap is quite simple which lends itself to greatness. In each bar you will find olive oil, coconut oil, goat's milk, essential oils and lye as the cleaning agent. Goat's milk enriched with vitamins and minerals nourishes the skin.
Benefits of coconut oil and olive oil to the skin are its soothing and moisturizing properties. These oils also produce a wonderful lather that leaves your skin feeling clean! Our simple and natural ingredients make our soap stand out among the basic chemical saturated common soaps, but our true originality comes from the desire to help the lives of others
I'm Cortana. Ask me anything.
