App download buttons

About Page:

A header with background image showing “About”, below this we will show “ Who we are” with some content. Then show a map of USA with locations we are serving, below this we will be having description.

Locations Covered:

This page should have “Help” call to action with animated map covering entire states of USA. When clicked on a state>city page should open up.

Blog

This section should have all the blogs listed>when a blog is opened, it should show subscribe email newsletter on top right hand and below it recent post atleast 6. Below the blog post, there will be a comment section (Disqus plugin).

Work with us

List out the benefits of working with Vecgram. Why they should choose us, payout rates, easy of payments, how they can manage their team.

Services offered or Tags

This section will show the services offered with tags for specific services, which again will open up a separate page describing the service.

Contact

Basic information form

Service Login

This will be a separate login page for the service provider to register and use our service.
