

The New Economy

The economy is finally beginning to show signs of recovery. You may not realize that small to medium businesses generate half of the U.K's national income and two thirds of all employment, so undoubtedly they are playing a major role in this "new economy" that is emerging. Business is changing fast and it is more competitive than ever, so it is vital to the success of any company, to find innovative and creative ways to attract new customers, keep them coming back and stay ahead of the competition.

Helping Your Business

Recently there has been a growing trend in small business owners enlisting outside sources to help them find ways to grow and promote their businesses. At One-Result we have over 30 years combined experience in management, ownership and consulting in a wide array of businesses. We know what works and what doesn't, and being entrepreneurs ourselves, we know first hand the struggles that can come with owning a business. Our latest venture saw us grow a new construction company from zero to over 6 MILLION in revenues in just under 2 years. This was achieved through the implementation of our unique sales, marketing and customer service strategies. Our genuine desire to help businesses and individuals succeed is what One-Result is all about.
