Please note that the colour reproduction of the PMS colours throughout this brand brief is not 100% accurate.

Colour variation may also occur when printing on different types of paper stock or through different printing processes, such as litho or digital.

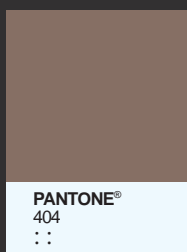

To see a Pantone® swatch showing accurate colour representation, please contact a brand guardian.

All Pantone® CMYK colour breakdowns are taken from the Pantone® Matching System 'colour bridge™ coated EURO 1st edition'. Depending on the stock or on the individual printer, he or she may feel they need to slightly amend the values to achieve an accurate match to the Pantone® swatch.

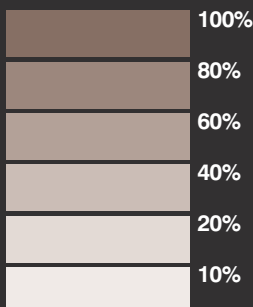

The RGB values and HEX values also reference Pantone® Matching System 'colour bridge™ coated EURO 1st edition'.
