

Our coffee tradition began with our forefather Ibrahim Saklaoui in 1940. Ibrahim started his first coffee business in a small warehouse in Senegal Africa.

Today the Zanzibar coffee is forged in the industrial city of Newcastle NSW with Sam as coffee blender, founder and owner of the Zanzibar Coffee

We are forever sourcing, cupping and sample-roasting to get our blends perfect for our toughest critic... you!

The beans we source come from a variety of sources, including Fairtrade and Rainforest Alliance.

Our guarantee to our customers is that your coffee will be consistent, roast after roast. You will always get the same great coffee, time after time.
