

OK, I will proof this morning and confirm acceptance and you can send me the high resolution files. Same with the inside and we can wrap this up today. Sincerely appreciate all your hard work and efforts. Very well done! Thanks so much! Eric

Achiever: on the outside, there are a couple of small edits: 1. The 5th bullet point (far left page column) the end of the sentence reads: "or insurance question"....it should read "or insurance questions". Please add the "s" to the end of the word insurance so it is plural. 2. on the phone numbers on the back (black middle page)....the 402 number has . (dots) and the 515 number has - (dashes). Please make the 402 number with - (dashes) so they both are uniform and the same. 3. I want to take the * (asterisk) of the sentence with the free cups and take the last sentence out. I can explain this to them if asked and I want the process for setting up accounts not to be confusing. (This is on me and my change of mind...you did it perfectly). It just simplifies it and makes the back look cleaner. Thanks! E

On the inside. I only have one small change. (not your fault...just me changing my mind a little after reading it). This has shaped up very nicely. The only change I want to make on this is under the reference section....First quote (Christian). Change the last sentence from: "We consider Eric to be our partner and not just a vendor" to: "We consider them as our partner and not just a vendor".

One other minor thing. On the quote for Dr. Padron.....the letters "r" and "n" in Ernesto look like they are touching and appear to look like Em ("m"). Is that just the way it looks or is it spelled right? His name is Dr. Ernesto Padron. Dr. Ernesto Padron is the correct spelling. Thanks! E
