Air Testing Specialists

White Air works in accordance with ATTMA TSL1. Our permeability engineers are fully certified and work all over the UK

White Air are also approved installers of Walltite spray insulation. This can be applied to new and existing properties. WALLTITE® from BASF is a foam insulation system for internal walls, floors and roofs that provides a seamless airtight solution which, unlike conventional insulation materials, is spray applied.

About us

- Hybrid Timber Frame Design, Engineer, Manufacture and installation
- The Whites Group was formed in 2004 and has since grown to become one of the UK's leading experts of Passivhaus, Eco Homes and large project buildings.
- Based in Gamlingay, Bedfordshire, White Haus work nationwide with highly trained installers that not only provide a quality service, but also have the knowledge and skills to carry out their work safely and effectively.
