## ABOUT US

FROM IT'S HUMBLE BEGINNING IN 1999, THE SURVEILLANCE SHOP EMPLOYEES HAVE WORKED HARD TO BECOME ONE OF CANADA'S MOST TRUSTED COMMERCIAL SECURITY INTEGRATORS.

We started many years ago when businesses still used VCR tapes to record their terrible grainy video for the entire day.

Now we are called on by the smartest clients (that's you) to install high definition camera systems, card swipe access control, alarm systems and intercoms ... all accessible on their phones and iPads.

Our projects include everything from small business to multi site enterprise corporations — we are just happy to get the opportunity from you — whatever that might be. We invite you to request a demonstration, call our references or just get crazy and give us a chance to prove to you that we are the right firm to handle all of your security.

### Easy to use Software

Keeping an eye on your business has never been easier.

### Access Control

Through the use of programmable cards and fobs you'll never have to worry about changing locks again.

### High Definition

Real-time HD, high-resolution viewing with less bandwidth.

### Experience

With many years of experience, you can rest easy knowing the security of your business is in expert hands.

### Remote Access

Control access to your building through any web browser and monitor your system remotely from any device.

### Upgrade

Upgrade your surveillance system to HD without replacing your existing equipment.

## OUR PROMISE TO OUR CLIENTS...

1. Our **sales team** will prepare your free quote within 24 hours of seeing your site
2. Our **install team** will have all related safety certifications and will complete a professional installation
3. Our **service team** will be quick and friendly

### End-to-end security, all in one place

We're your one-stop-shop for award-winning HD video surveillance and access control solutions – from servers to cameras to door readers. Empower your security teams with industry leading technology and software designed specifically for the IT professional.

### The industry's easiest to use software

Surveillance Shop's video and access control software are designed with intuitive, easy to use interfaces at their heart. Our Surveillance Shop Control Center (our client software) offers you the industry's simplest interface for managing video. Our client software puts you in the driver's seat, giving you complete control of video playback. Combine this with Surveillance Shop Access Control Manager, which is accessible anywhere, anytime. You're never tied to a particular location or workstation.

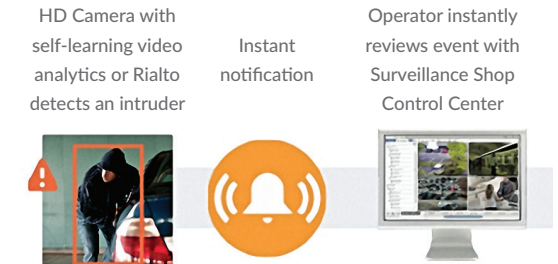

### Access control you can use whenever, wherever

Our Access Control Manager software is browser based, enabling you to manage employee credentials and access anytime, anywhere. Any workstation with an Internet connection can become your center for access control.

### Don't miss a thing Always-on technology

Securing multi-site areas with guards is expensive, and security personnel can't be everywhere all the time. Surveillance Shop's analytics solutions can monitor an area 24/7/365 - and will not look the wrong way or even blink. Get peace of mind with your existing system, knowing you're covered all the time, any time.

### Intelligence is built in

We provide end-to-end security solutions with intelligent capabilities – encompassing HD cameras with unparalleled image detail (such as our new 7K HD Pro camera and new HD multisensory camera), software, access control management, and self-learning video analytics (now included in many of our HD Pro cameras) – to provide security that is sharper and smarter to better protect your people, property and assets.

### Cost effective protection

Our end-to-end solution helps change the cost model for security so that it becomes cost-effective to protect all of your valuable assets.

# OUR 5-STEP PROCESS MAKES YOUR SECURITY SIMPLE FOR YEARS TO COME.

## 1 NEEDS CONSULTATION

**Our process offers you total security coverage.**

The Surveillance Shop is one of Canada's premiere integrators and security systems experts. Cameras, access control, intercom, and intrusion detection—stand-alone systems or fully integrated—we design the solution that you need and provides the highest return on your investment. Our knowledgeable and friendly representative's work together with you to create a system customized to meet your specific needs. No pressure, no tactics. We are here to help you.

## 2 CUSTOM QUOTE

**A quote that fits your security needs – Whatever they are.**

We know your security needs are different from everyone else's. We provide you with a quote that is unique to you. We've been doing this for over a decade and don't need to take up your valuable work day to propose the right security solution for you. With us, you get no surprise and nothing unnecessary.

## 3 INSTALLATION

**We'll make installation worry free.**

Our fully trained professional technicians provide the total installation package. From cabling to device mounting to head-end server and software configuration to end-user training, the complete start-to-finish installation ensures your systems are installed correctly and operating at peak performance levels.

## 4 ONGOING SUPPORT

**Our customer service is second to none.**

Immediate Response and Action from our exceptional customer support personnel means we are always here for you. It's very simple for us—we care about you and will do whatever it takes to provide you with the full ongoing service and support required for your business and operations.

## 5 IMPROVEMENTS & UPDATES

**We keep you informed about improvements to your system.**

We're not idle when it comes to your security. If we discover a new product or service that would be perfect for your existing setup, we'll let you know.

# TESTIMONIALS

*"Thanks again for all the great work you have been doing for us, there have been glowing reviews from everyone on both the improvements and the excellent level of customer service we have received!"*

[Encana](#)

*"They answered their phone when the others didn't. They were personable and when I asked specific questions they were able to put together a package. They did this quickly and we were in need of it happening quickly. Our company sends out request to tender and they were the best deal."*

[Nexen Inc.](#)

*"The Surveillance Shop recently installed high definition camera systems at many of our facilities. The service, quality of work, and performance of the product have been excellent."*

[Cenovus Oilsands Security](#)

*"I like that the employees feel a sense of ownership with their company. When I have questions there is always someone who I can speak to."*

[Best Western Port O'Call Hotel](#)

*"The cameras are working great and we use them constantly. Very pleased with the product and service and would recommend The Surveillance Shop to anyone"*

[Country Hills Hyundai](#)

*"Using the Surveillance Shop for our CCTV was the best move we have done for security. They are very professional and efficient and use top quality hardware. Great to deal with and would never use anyone else!"*

[Fox Hollow](#)

*"The Surveillance Shop installed a high definition camera system in our newest casino which is providing excellent video evidence with an easy to use software. We're very happy and look forward to our continued relationship on our other locations."*

[Century Casino](#)
