SOLUTION THAT IS 100% GREEN!**

ExpandOS™

SMARTER PACKAGING.

by **FOLDEDPAK INC.**
INTERNAL PACKAGING SOLUTIONS

BETTER PROTECTION

- ExpandOS™ provides superior blocking and bracing capability.
- Interlocking design creates a protective cocoon around your shipment.
- Unique design helps dissipate vibration energy.
- ExpandOS™ will protect your product from impact shock.
- A reliable, predictable, consistent performing product.

SMARTER PACKAGING

- Simple, loose fill format, flowable product.
- No complicated packing instructions or training - surround shipped items with the right amount of ExpandOS™ and ship!
- Forget wrapping, taping, dividers, corners and other special packaging.
- ExpandOS™ fits your package – use for virtually any type of shipment.
- Space saving product is expanded at the point of packaging.

ENVIRONMENTALLY RESPONSIBLE

- ExpandOS™ are made from fiber certified by the Sustainable Forestry Initiative.
- ExpandOS™ are made from 100% post industrial waste!
- ExpandOS™ are 100% recyclable – just throw in the nearest cardboard recycle bin.

SAVE MONEY

ExpandOS™ can help reduce your total package cost.

ExpandOS™ usually reduces:

- Damage costs
- Labor costs
- Material costs
- Storage costs
- Indirect costs
- Inbound freight

BRANDABILITY

ExpandOS™ is brandable. Differentiate your shipment by adding your name to the most protective environmentally responsible void fill available.

Help demonstrate your commitment to being environmentally responsible.

Sheets per Bundle: 415
Bundles per Pallet: 40
Pallet Size: 40 X 48 X 46
Pallet weight: 1550# approx

Looking for an **eco-friendly** high performance alternative to Foam in Place, Bubble Wrap, Foam Sheets, Packaging Peanuts or Molded Foam Inserts for your packaging needs? **EXPANDOS™ PACKAGING MATERIAL IS RIGHT FOR YOU.**

SUSTAINABLE FEATURES OF EXPANDOS™

We use only SFI Certified paper. All of our paper is certified by the Sustainable Forestry Initiative. For more about this important program, please visit SFIprogram.org.

ExpandOS™ is made from 100% post industrial waste material. ExpandOS™ is made from paper waste that would otherwise have to be re-pulped, helping greatly reduce the carbon footprint for this material.

ExpandOS™ is 100% Recyclable. When you are done with ExpandOS™, toss them in the nearest recycling bin. Don't try that with foam or packaging peanuts.

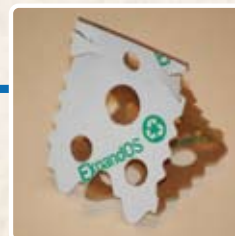

The patented ExpandOS™ (Expand On Site) design is a paper packaging solution that is completely reusable / recyclable. Our paper is manufactured from certified sustainable forestry and reduces the industrial waste stream, resulting in a low carbon foot print. The unique design of 38 different edges and holes allow ExpandOS™ to fit together to form a protective barrier against potential damages. With this technology, ExpandOS™ provides the blocking, bracing, and cushioning of its competitors, while also being environmentally friendly.

Furthermore, ExpandOS™ has the ability to expand to 25 times its original size at the point of use. That means 25 fewer truckloads of petroleum based products that are using up our world's natural resources, polluting our environment, and ending up in our landfills. With the ability to brand your own logo onto ExpandOS™ with bio-degradable ink, product marketing has never been easier.

SUSTAINABLE FORESTRY INITIATIVE
Good for you. Good for our forests.™
