INTERNAL PACKAGING SOLUTIONS

BETTER PROTECTION

- ExpandOS™ provides superior blocking and bracing capability.
- Interlocking design creates a protective cocoon around your shipment.
- Unique design helps dissipate vibration energy and reduce settling.
- ExpandOS™ will protect your product from impact shock.
- A reliable, predictable, consistent performing product.

SMARTER PACKAGING

- Simple, loose fill format, flowable product.
- No complicated packing instructions or training - surround shipped items with the right amount of ExpandOS™ and ship!
- ExpandOS™ fits your package – use for virtually any type of shipment.
- Space saving product is expanded at the point of packaging.

ENVIRONMENTALLY RESPONSIBLE

- ExpandOS™ are made from fiber certified by the Sustainable Forestry Initiative.
- ExpandOS™ are recyclable.

SAVE MONEY

ExpandOS™ can help reduce your total package cost.

ExpandOS™ usually reduces:

- Damage costs
- Labor costs
- Material costs
- Storage costs
- Indirect costs
- Inbound freight

BRANDABILITY

- ExpandOS™ is brandable.
- Add your brand to ExpandOS™

ExpandOS™ PRODUCT RANGE

ExpandOS™ VF

Minimal protection void fill alternative

ExpandOS™ VF was designed to provide an economical void fill alternative for use in applications that require only minimal protection.

Use ExpandOS™ VF if you are shipping items that need only minimal protection and cost is a core issue.

ExpandOS™ MD

Versatile protection for most shipping situations

ExpandOS™ MD is our core product and is designed to accommodate all general purpose applications where product protection is important.

Use ExpandOS™ if you need protection from damage and your item being shipped weighs less than 35 pounds or 15 kilograms. ExpandOS™ MD is usually the best choice for most general shipping applications.

ExpandOS™ HD

Protective packaging for very heavy items

ExpandOS™ HD was designed to help protect very heavy and dense items during shipment. Made from extra heavy paperboard, ExpandOS™ HD has the strength and rigidity to support and protect your heaviest items from damage.

Use ExpandOS™ HD if you are shipping items that are very dense and weigh more than 35 pounds or 15 kilograms.

INDUSTRIES SERVED

Medical/Dental Equipment
Electronic Components
