

Green Insulation™ is proud to introduce Reflecta- GDI™ The Future of Garage Door Insulation!

About GDI

GDI is the patent owner specialising in retrofitting insulation to sectional panel lift garage doors.

Pat. Pend.No.2005902626 Innovation Pat.No.2005100654.

- :: Australian - Owned
- :: Australian - Designed
- :: Australian - Manufactured

The GDI product is a breakthrough in protecting the insulation surface from oxidization & corrosion. This protective coating provides for a sustainable long term R value.

The highly reflective garage door insulation is made up of two layers of extra pure aluminium foil reflecting up to 97% of radiant heat. Each layer of foil is heat laminated to a tough layer polyethylene sandwiching air pockets for thermal insulation

Each double pack will cover a standard 16 panel double garage door, if your garage has 20 panels you may require an extra roll, or your Single Pack will cover a standard 8 panel door.

Reflecta- GDI™ is a clean and green product.

Please see product packaging for installation instructions:
