# T25

**POWAPOS**™
**payment freedom**

## Point of Sale. Now officially designed for the tablet

**PowaPOS T25 is the first truly all-in-one point-of sale system designed specifically to take advantage of the growing demand for tablet-based payments.**

Unlike other tablet-based POS systems, the T25 incorporates all common retail peripherals into a single, secure, elegant and ergonomic form, requiring less counter space and reducing costs. The built in thermal printer and advanced 2D QR/barcode scanner offer the ultimate flexibility to meet merchant needs today and tomorrow. All of this with just one power cord. And no more mismatched components.

And, because we believe in the power of the development community to create rich POS software applications to meet the needs of the marketplace, we've created an advanced software developer kit that provides universal OS support for iOS, Android and Windows applications. All easily integrated through a single API. It's freedom of choice.

### Scanning the future

Protect your POS investment with an advanced, ergonomic 2D QR/barcode scanner that handles the needs of merchants today and tomorrow.

• Capture virtually any 1D or 2D barcode in milliseconds with Motorola PRZM Intelligent Imaging

• A single scanner captures merchandise, QR codes, mobile phone and loyalty card promotions and drivers licenses for ID and age verification

• Up to 10,000 scans per charge, with omnidirectional scanning that operates in a wide range of ambient light, even direct sunlight.

## Freedom pays here

Hands-free and bi-directional 2D QR/barcode scanner with Bluetooth technology captures merchandise, QR codes, and more

Single cord powers system and all peripherals

Universal mount supports all OS and most tablets.

Fully integrated thermal printer features standard 80mm paper roll, easy loading

Matching 13-inch, high quality cash drawer, reinforced specifically to support the T25

Accept all payment cards with the EMV-ready PowaPIN. Also compatible with all third-party payment devices, including NFC-enabled

## Freedom of choice

As a single API for all of your device and payment system interfaces, the PowaPOS SDK provides an advanced, simple integration solution for your application to the T25 hardware.

Standard interfaces are provided for the integrated printer, barcode scanner, cash drawer and PowaPIN EMV payment device. In addition, PowaPOS SDK can provide support for a growing list of third party PINpads and other peripherals to support NFC-enabled payments, including Apple Pay. PowaPOS SDK also allows simple integration with PowaTag, our innovative mobile payment enablement app.

The PowaPOS SDK addresses the ongoing costs associated with PCI-DSS compliance by establishing an out-of-scope environment for integrated payment applications. By providing a secure and firewalled interface to PCI and EMV compliant devices, PowaPOS SDK allows software providers to save thousands of dollars in ongoing assessment and certification fees.

## Technical Specifications

**UNIVERSAL TABLET OPERATING SYSTEM SUPPORT**

• iOS  • Android  • Windows

**MOUNTING OPTIONS**

• iPad Air mount (tablet not included)  • Universal mount for iOS and most Android and Windows tablets

**INTEGRATED PRINTER**

• Industry standard  • 80mm width  • 3" diameter roll (~70M length)
• 100 mm/second  • Easy drop-in loading  • Metallic tear bar

**INTEGRATED 2D SCANNER**

• 2D imager with Motorola PRZM Intelligent Imaging
• Hands-free/presentation mode scanning in bi-directional cradle  • Hand-held scanning with Bluetooth 2.0  • 10,000 scans per charge  • Simultaneous charging and scanning

**OPTIONAL CASH DRAWER**

• Matching black powder coat finish
• Available U.S. and international currency inserts
• 24v Dimensions: 13.1"W x 13.1"D x 4.33"H

**OPTIONAL ANDROID TABLET**

• Android 4.4.2 operating system
• ARM cortex A7 with 1 GB RAM and 8GB mass storage

**OPTIONAL INTEGRATED PAYMENT TERMINAL**

• PowaPIN supports EMV Chip & PIN, Chip & Signature, Magnetic Stripe and PIN debit payments  • EMV Level ½, PCI PTS (with SRED)  • CAS POI  • CE (IR&TTE Directive) / IEC 60950-1
• Bluetooth EPL listed  • Apple MFi certified

**SINGLE CABLE INSTALLATION**

• One power cord plugs into electrical outlet for ease of installation

**SECURE LOCKING DEVICE**

• Compatible with Kensington locks

**PERIPHERAL EXPANSION PORTS**

• 1 USB 2.0/1A supply  • 1 USB 2.0/500ma supply
• 24v cash drawer interface

**THIRD PARTY DEVICE SUPPORT**

• Supports Verifone, Ingenico, Worldline, Pax and many other payment terminals via USB peripheral port expansion hub
• Capable of supporting additional third party devices such as scanners, scales and more

**SYSTEM TEMPERATURE**

• Operating temperature:  $0^0$c to +40$^0$c
• Operating humidity:  20 to 85% RH (non-condensing)
• Non-operating/storage temperature: -20$^0$c to +60$^0$c
• Non-operating /storage humidity: 5 to 85% RH
