Financial Engineering

# The Company

---

## **about us**

Marigny Capital is a financial engineering company.

It is fully independent from any bank or any other company.

## **our clients**

Our clients are financial professionals such as asset managers, institutionnals, corporates, private banks, wealth managers and family offices.

Our purpose is to make their work easier, every day.

*« Our clients must  
deliver performance  
on their portfolios on  
a regular basis.*

*We help them deliver  
everyday.»*

## **what we do**

We provide them with investment solutions designed to improve their portfolios performance.

Simple as that.

# Our Services

---

## **investment advice**

Each client is looking for a unique investment solution. Hence, we combine internal and external resources to create the financial product that will best fit our clients requirements.

Thanks to a truly independent advice, we offer bespoke, simple and efficient solutions.

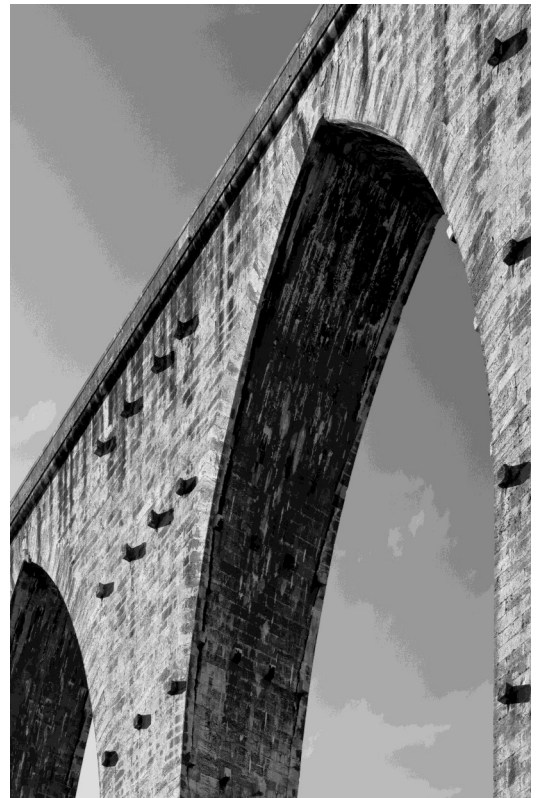

## **portfolio analysis**

We advise our clients on their portfolios of financial products. Together we identify the needs for restructuring or reallocating the assets.

We also provide full monitoring and reporting services throughout the life of the products.

## **partner selection**

Our internal tools allow us to continuously assess the issuers we are working with. Therefore we give our clients the luxury to chose among the best issuers for their investment solution.
