WINEMAKER TESTIMONIALS

*"Our wine makers just pressed off a few batches of the Vino Superiore wines this week... We knew they would be excellent, but we are just astonished at the quality and flavor of these grapes. They fermented **beautifully releasing deep, rich color** and showing intense fruit expression. We are very excited to watch and taste as these spectacular wines age and evolve"*

— Midwest Supplies

*"I had an excellent experience in working with your grape musts. I made a wine that rivals any wine I've purchased from the store. **I can't wait until the 2012 harvest!**"*

— Chris R.

*"Vino Superiore truly helped me reach the next level in my winemaking. The color of my Super Tuscan is this **incredible deep, rich purple color and the palate is dark cherries and plums.** Just excellent."*

—Joe B.

Do you aspire to create artisanal wines on par with those from world-renowned Italian wineries?

With Vino Superiore, you can achieve that goal as you pursue excellence in your winemaking.

Our History

For the Cuciniello Family, Italian wine is more than a passion. For years, they have perfected the art of home winemaking in Italy and abroad. Through years of experience, they found that few grapes and grape musts could match the quality of grapes from Italy.

So began a quest to bring the finest grapes of Italy to the amateur winemaker. Through relationships with vineyards across Italy, Vino Superiore painstakingly chose the collection that is available worldwide today.
