Welcome to Mission Creek Homes, your Saskatoon and area Custom Home Builder.

At Mission Creek Homes, we pride ourselves on building homes that add value to your life. Quality and expert craftsmanship are the goals we set for every project, and we firmly believe you deserve only the best.

Our home builds always start with a single vision. We place emphasis on building attractive, appealing and functional homes. Of course, to build a breathtaking home that perfectly suits your personality and needs, we have to get to know you and your family. Time spent with you in discussion opens the pathway to a successful home build.

Each home we build is crafted with the same passion, detail, and expert care that we would use if it were our own home. Starting from the initial design consultation to the time you are moving your furniture in the front door, we pour our heart into your home build.

Our passion for our work bleeds into the nuances of every corner of the final result. From a perfectly flowing layout to an interior architecture that speaks to your soul, there is no place left untouched by our craftsmanship.

Your house is more than a piece of property. It's where you will raise your children. It's where your family will spend countless holidays surrounded by the ones you love. It's your home, your retreat. No other material possession is so linked to our daily life as our home. Investing in professional and top quality construction services can not only improve the livability of your home, but also the beauty of your life.

We focus on both sustainability and functionality, to make your house a home everyone can enjoy. Your vision and style are always put first when you choose us to be your home builders.

For breathtaking, dedicated, and professional custom home builds, look to Mission Creek Homes.

About Us (Page 2) Finalized Write up Sunday

Rick Groeneveld (profile picture)

President

Rick Groeneveld has many years of experience in the home building industry. He has completed many significant projects throughout western Canada over the past 25 years. His experience ranges from large scale town house projects, including high-rise tower construction, to commercial Developments where you can do your day to day shopping. He has completed homes in all different price ranges from entry level to high-end living experiences. These varied experiences have given him an ability to find value in the construction process where others would not, giving the home buyer a value that they didn't expect at all price levels. He is a very hand's on Builder, with a commitment to quality, safety and to client happiness. MCH uses only the finest materials and tradesmen in the City to assure the quality and beauty for your home. Rick is very approachable with your visions for your home and with questions that will help guide you through the building process to help save time, costs and inevitably guiding you to the home that you desire. In building your home, our scope of work

encompasses all the details, leaving you with an enjoyable, positive experience. Building your dream home is supposed to be an enjoyable time, and stress does not need to be a part of it with the right Builder.

What We Do (Add some Pictures)

New Home Construction

Our primary business function is new home construction. Our vast experience will give you the home that you want. Perhaps you may not even realize what that 'want' might be, but with the help of MCH and our designers, we will give you the living experience that you have been searching for. Our process for building will have you thinking, 'that was easy' long after you move in.

Land Development

An opportunity to bring value to our purchasers is to develop our lots or townhome projects ourselves. MCH's experience in Land Development and Planning ensure that we can bring quality living to our purchasers on our terms. Using only the best urban planners gives us the confidence in our projects, ensuring value for our homeowners from when they initially purchase to when they decide to move up to their next MCH home.

Renovations

We don't always want to move. Sometimes the area in which we live has too much going for it, the perfect lot size, school is right across the road, how close it is to work or how we just love our neighbours. Your house may need a little or a lot of fixer-upper. We can help you with that as well. Through our many years in the industry, we can bring new to your old. We take you through the same process we do for our new homes, giving you the best of both worlds.

Consulting/Partnerships

Occasionally people take on projects that may be a little too much for them. MCH can help you get back on track with your new home or renovation Project. Our ties to the local trade and supplier community make what was becoming stressful, simple.

MCH is also always interested in hearing about investment opportunities or partnering ideas that you may have and bring them to reality. Partnering is a great opportunity for both parties and with our vast experience and connections, we can be assured it will be the beginning of many future business dealings.

Our Process (Page 3) (Add some Pictures)

The Dream

Most folks find building a new home to be an exciting journey, but often don't know where to begin. We know you will have many unanswered questions and hesitations before you even contact us. At our first meeting together, we'll do our best to answer your questions. We'll have some questions for you. If you aren't exactly sure where to start, that's no problem. We are happy to meet anyway!

The Design

Our initial meeting with you may take one to two hours. We will ask many questions and take detailed notes regarding your needs, ideas, and dreams for your home. After our initial meeting, if you wish to continue the process of having a home designed, we will meet with you to discuss and review our Design Agreement. It describes in depth our costs, payment schedule, our obligations to you, and time frames.

The Build

We will take the home we design for you and ensure it is built to the standards and commitments we have made to you in the Construction Agreement we put in place with you. As much as possible, we will endeavor to make the process of building your home a smooth one while providing you with as much information as we can to answer your questions and help you make the decisions needed to define your tastes.

The Move

Before you move in, we make sure everything is what you wanted, built to the quality that you would expect. We walk through the home one week prior to your move in to ensure not only your standards are met, but ours as well. We hold our trades and suppliers accountable for the work and material that goes into your home so you don't have to.

Warranty and Beyond

If you have been in a situation in the past where you have built a home and felt abandon as soon as the keys were handed over, you have met the typical builder. Mission Creek Homes realizes that our business will thrive and flourish on your referrals. That's why we pay attention to our purchasers during the warranty period and beyond, offering second to none client care that will have you bragging about us to all your friends and family.
