

What can they expect

Although we do accept walk-ins, we encourage all patients to schedule an appointment with our office. Upon entering, we will greet the patient, and create a medical chart for them to keep in house. The paperwork the patient fills out covers their medical and surgical history, as well as any medications they have been prescribed. The patient will then see a board certified physician to discuss the risks and benefits associated with medical marijuana, and determine whether or not it is the correct treatment option for them. After the appointment, our physician will register the patient with the DPH, and that will complete their visit to MedWell. The patient is responsible for completing the registration with the DPH so their ID card can be mailed to them. We provide step by step instructions and support throughout the duration of this process.

An extensive list of FAQs can be found on our website. For any other questions please feel free to contact us directly via phone or email.

A safe, clean, judgement free environment you can feel comfortable sending your patients..... *At MedWell, we care.*

What is medical marijuana?

Medical Marijuana refers to the use of cannabis or marijuana, including constituents of cannabis, THC and other cannabinoids, as a physician-recommended form of medicine or herbal therapy. Medical Marijuana helps treat a wide range of symptoms, and can be used either supplemental to another form of treatment or in some cases replace the treatment entirely. As tests continue and our knowledge of the plant expands more and more, benefits are being uncovered daily.

Why Medwell?

Medwell was created with the intent to provide patients a safe, clean, judgment-free environment where they can come for a medical marijuana evaluation. It is a place that was birthed out of necessity. A place where we could feel comfortable sending our mothers, fathers, and closest loved ones. At Medwell, our ONLY concern is making sure each and every patient feels welcomed and informed as it pertains to the process. We understand the stigma associated with cannabis use, and we do everything we can to make sure patients feel protected. Our knowledgeable staff are here to answer any questions and assist the patients through the process from A-Z. As well as in-person, Medwell offers 24/7 LIVE phone support, and also an extensive FAQ page on our website. We take pride in upholding the standards of the medical community, and protecting patients' personal information.

Qualifying Conditions

The state of Massachusetts currently lists over 200 qualifying conditions for the use of Medical Marijuana. Some of them include:

- Cancer
- HIV/AIDS
- Chronic Pain
- Insomnia
- Chronic Nausea
- Bipolar Disorder
- Fibromyalgia
- Glaucoma
- Hepatitis C
