

Inventory Walkthrough Case Two

I arrive at site.

It prompts me with “I have....” and I quickly enter in

Laptop

Wood Desk

Old chair

And I can say “In my office”.

I then click on “I want....” (or go to the I Want site) and I type in

MacbookPro - available from Apple.com

Glass Desk -

Desk Raiser from Varidesk

Hermann Chair

I then say “Share this with George and Fran”

George is on the site and sees that I want a MacbookPro and has one so he then says “Have It” (meaning he has it for MY list) and marks a receipt date of a month from now.

Later in the month, I log in and see a list of everything I have and now my Laptop has an End Date of Today and the MacBook Pro has a start date of Today. I can also see that on my “I want” list, I still have a glass desk and a Desk Raiser. I buy the Desk Raiser and now, can check that off as a “I have” and it is removed from my list.
