

SMALL TOWN, WITH BIG DREAMS,

HAZLET SASK.

Hazlet
Saskatchewan

The Village of Hazlet is located approx. 75 KMS north west of the City of Swift Current. Surrounded by Farming, Ranching and Oil and Gas Industry, this small village has created a great community for families, young professionals and retirees to be at home!

In the last 10 years we have seen a resurgence of life and activity here.

We are home to Chinook International Program, a school that hosts K-12 local students, plus 10-15 international students from around the world each year.

We are home to the first Wind Powered Rink Facility- with a skating arena and two sheets of curling ice.

Other businesses in town include, a Gas Station/Convenience Store, Café, Library, Guest House, Welding Shop, Gym, Seed Cleaning/Sorting Plant, Day Care, and Thrift Shop.

Hazlet has a great quality of life for our residents. Local organizations host many great events to bring people in from the different communities and the entire South West.

We have hosted big country music artists such as Corb Lund, Aaron Pritchett, and Julian Austin. As well as many smaller name bands for dances and outdoor concerts at our Regional Park. We offer various recreational opportunities as well for all ages, such as adult volleyball, badminton, hockey, can skate, curling, canoeing, kayaking, baseball and various fitness classes!

Our Library actively hosts adult learning classes during the fall and winter seasons ranging from Cooking to Spanish classes. We strive to be a community that is family orientated, active and safe! We all work together to volunteer, donate and participate to ensure our local businesses, events and projects are supported.

The Big House: *Hazlet* Saskatchewan

More than just a place to stay!

The Big House is a large renovated farmhouse located in the Village of Hazlet, owned and operated by the Hazlet Economic Development Committee. Beautifully furnished to be a comfortable Guest House, this house has been a great addition to the community of Hazlet. This has been a project to build space for new business and opportunity. The house has been host to Hair Stylists, Massage Therapists and many sale events hosting small businesses and local crafters. Designed to have great atmosphere, the house has also been a great space for small acoustic concerts and wine and tapas nights. We provide low rental rates for small businesses, in order to accommodate growth and business development in our Village.

To whom it may concern,

The Hazlet Economic Development Committee is happy to have interest from a local entrepreneur to create new business in our local establishment "The Big House". The house will be a great location for a proposed giftware store, featuring fusion paints, and there is potential for ongoing creative classes using fusion paints. Being that the house already displays local artisans and crafters the business would fit perfectly.

With talk of creating coffee shop to compliment the house's existing office space, thrift store, guest house and potential gift store. This hub of small town creativity will be a great addition to our community and a great destination for surrounding community shoppers!

We are excited to have a collective of entrepreneurs incubating small business in The Big House, bringing more visitors, shoppers, and guests to our community. We will help support this new business in any way we can as a committee.

Thank You,

Lindsay Alliban
Hazlet Economic Development Coordinator
