How are the plans different?

Small Business plans include internet faxing and access to VIP Support. They also include more included minutes and more extensions. Both plans get all of our included features.

How does the free trial work?

Simply. Professional and Small Business plans come with a 30-day free trial and we won't charge your account until the trial period has ended. You may cancel at anytime.

Can I make changes to my plan?

Yes. With the online account manager you can easily update your call settings, users, or billing info - as well as manage your messages, update greetings, add or remove extensions, and upgrade your plan.

What if i go over my monthly minutes?

Overages are charged at 3.9¢/minute. You can upgrade/downgrade your plan at any time.
