

QURAQU™

Tanning Lotion-Quality by Design

Quraqu Tanning Lotion is the most extraordinary and innovative sun tanning product to emerge in several generations. The constituents of this product are formidable substances that protect the skin against the aftermath of sun exposure—before you exposed yourself to the sun's rays. The Aloe Vera in this product, along with other oils and cream, are specifically manufactured to lessen the symptoms of extended exposure to the sun. Quraqu is designed to provide a Broad Spectrum Protection (50) that assist in the reduction of (UVA) and (UVB) radiation to create a magnificent sun absorbing, and long lasting deep dark bronzing experience. It is an elegant gift from nature that leaves your skin feeling fresh and not greasy. It is water resistant, contains no preservatives or coloring agents. Quraqu Tanning Lotion is manufactured utilizing the finest raw materials obtainable that are grown and imported from various regions of the world.

Product of the USA: Staten Island, NY
