Shairing On

Current Trip
Fare: 60\$

STOP

In Shairing as soon as the bid is confirmed, system will calcultae the next pickup and navigate the driver automatically, as soon as driver is en-route to 2nd trip it will be highlighted and current and all other trips will be greyed out, if the 2nd trip finished before any other then it will be higligted throughout the journey. If the 2nd trip finishes agfter 1st trip then only that part will be highlighted which falls under 2nd trip, once driver is back on trip 1, system will again highlight that route. Driver will tap on start at the time of each pickup. if the 2nd trip finishes before 3rd and 1st trip then system will navigate driver to the 2nd trip destination. Which ever trip is enabled its details would be shown as illustrated in the pic.

At the end of all shared trips, driver can view each trip,its fare all in one screen but in different sections vertically. Also the top main map would shown the path he took from start to end involving all shared trips.
