

Construction...Industrial...Institutional...Consumer Series Products

	1009GR Green	1009GR is a highly versatile tape designed to leave no residue when removed from most surfaces. Excellent for surface protection. This is the tape preferred by professional contractors for adhesion and removability.
	1009CL Clear	1009CL is a clear tape with the same features as 1009GR.
	2010BL Blue	2010 series tapes are have more adhesion than the 1009 series tapes but still offer low residue removal. 2010 series tapes have excellent performance with advanced acrylic adhesive and are available in dynamic colors. These tapes are semitransparent and excellent for packaging, masking, and labeling as they are easy to write on with black or colored markers.
	2010BE Beige	
	2010RE Red	
	2010YE Yellow	
	1008SW Snow White	1008SW is a Marine Grade tape with outstanding UV resistance properties. Use where you need extreme outdoor exposure and durability. White surface is ideal for marking. Excellent all around high performance tape.
	2010GD Gold	2010GD is a high performance tape with a beautiful gold foil surface. Don't let the color fool you. This is a serious performance tape that is very easy to use.
	2010AL Silver	2010AL is a very clean and user friendly HVAC tape. Much easier to use than regular duct tape. G-Tape 2010AL will quickly become your favorite tape.
	9014CL 2-sided Clear	9014CL is a 2 sided tape with user friendly features. Uses include arts and crafts where it excels at being very strong yet incredibly easy to use. There is no other tape like 9014CL available at any price.
	5009MTBK Gaffer's Tape	5009MTBK Gaffer's tape is a Black matte tape for use in theater and film production. Along with having excellent adhesion, 5009MTBK leaves no residue behind like other rubber based tapes. Low residue means less cleanup time.
