

## ACTIVATING THE LATEST TECHNOLOGY IN THE RELEASE OF INFORMATION PROCESSES

HealthMark Group provides full, remote, and shared Release of Information (ROI) services and software to physicians and hospitals throughout Texas. By integrating experience, technology and services, HealthMark can help your organization concentrate on what matters most, patient care.

### ABOUT HEALTHMARK GROUP

Founded in 2006, HealthMark Group is a leading provider of health information management and technology services for medical clinics and hospitals. HealthMark was founded based on the specific need to incorporate technology into the Release of Information processes. HealthMark's MedRelease software is revolutionizing the ROI industry as software designed to meet the need for a more efficient method of releasing medical records, while complying with increasingly restrictive HIPAA requirements.

### MEDRELEASE™ TECHNOLOGY

HealthMark's proprietary software, MedRelease is a Software as a Service (SaaS) application that enables medical facilities to effectively manage and monetize the ROI process internally. MedRelease rejects the status quo that the health information management (HIM) department must remain a cost center. MedRelease provides the necessary tools to stay compliant with complex regulations while streamlining the disclosure process for all parties involved. In addition, MedRelease contains an attractive revenue sharing program, all at no cost to your facility.

- Reduced Overhead Expenses
- Streamline Revenue Source
- Systematic E-Delivery
- Robust Audit Logs and Reporting
- Accounting of Disclosure and Tracking

### WHY HEALTHMARK GROUP?

We remain on the forefront of technology by implementing proprietary software to enhance workflow. Accounting of Disclosure (AOD) management, web-based tracking of requests and patient portals contribute to our mission of providing superior health information management and technology solutions.

### JOIN US IN TRANSFORMING THE RELEASE OF INFORMATION INDUSTRY

HealthMark clients utilizing MedRelease include Heart Place, North Texas Preferred Health and Houston Heart Associates. Companies interested in learning more about MedRelease may contact Brad McPherson at [bmcpherson@healthmark-group.com](mailto:bmcpherson@healthmark-group.com).
