

# CROSSING RAILROAD RIGHT OF WAY (ROW)

## WHAT IS THE PROCESS?

### PROCESS

1. Contact railroad to obtain application and specify along
2. Submit application to railroad with engineering plans
3. When plans are approved, enter into license agreement with railroad
4. With completed safety research and engineering plans, enter into agreement with railroad to operate, maintain, and place railroad property and signage for track protection

EVERY RAILROAD COMPANY HAS  
A DETAILED PROCESS TO ENSURE  
SAFETY AND AVOID INTERRUPTION  
TO OPERATIONS WHEN CROSSING  
RAILROAD ROW

Railroads adhere to strict safety and notification standards so that both the entity creating an encumbrance on railroad property as well as the railroad themselves establish clear rules of engagement that allow each to accomplish their own goals while minimizing risk to the public.
