easy installation guide.

- 1. adhere the metal plate to the center back of your phone or phone case.**
(option to place non-stick metal plate between your phone and case, but be sure to test magnet strength)
- 2. place top loop of rubber band on the bracket ball.**
- 3. attach magnet to the bracket ball, then turn knob clockwise to tighten.**
- 4. rotate clamp screw counter-clockwise and remove to open the clamp.**
- 5. clamp baby magnet to stroller handlebar with magnet facing you.**
- 6. replace and rotate clamp screw clockwise to tighten to handlebar.**

important safety notes:

- **stroll safely and do not use phone while strolling your precious cargo!**
- **do not use with iPod or hard drive devices, can damage hard drive.**
- **do not use metal plate with Qi wireless charging devices.**
- **do not use with fragile or valuable devices.**
- **tighten clamp and use rubber straps to keep phone safe on bumpy roads.**
- **babe magnet can support up to 300 g in phone weight.**
