## SOLID TIMBER FLOORS ( BATTEN OR JOIST INSTALLATION )

Solid timber flooring can be laid on concrete with battens or the traditional Joist installation. Solid timber flooring comes in many width sizes and grades , so there's one to suit every application.

### TOTAL FLOOR REPLACEMENT

When your floor needs replacing we can remove the total floor, check and level existing joist and install the new solid timber floor

**Boral Timber Flooring**

**THE NATURAL SELECTION**

## DIRECT STICK TIMBER FLOORING ( RAW OR PREFINISHED )

Direct Stick timber flooring can be a solution for the more solid feel to your flooring solution, we will direct stick the timber floor to the subfloor either structa floor or plywood sheets using polyurethane flooring adhesive, then the floor is sanded & polished with the coating of your choice

Multi Plank Solid timber flooring is a PreFinished Solid timber flooring. It comes in many Australia and imported timbers all can be direct stick application or Floating Floor as the multi plank flooring has a unique joining system, it is joined together by a stainless steel V groove clip, this allows the boards to be joined together with a tension clip which allows for the shrinkage and expansion of the timber during summer & winter, and has its own special rubber underlay to cope with the weight of a solid timber floor, plus with the benefit of a furniture grade sprayed on coating it's the premium choice for a solid timber flooring.

### CUSTOM BORDERS & INLAYS

Borders are a perfect way to give a unique touch to your new timber floor, there are so many choices it's really up to your own imagination on how creative you want it to look.

## FLOATING TIMBER FLOORS ( ENGINEERED OR SOLID PREFINISHED )

## BAMBOO FLOATING FLOORS ( STRAND WOVEN )

Strand woven Bamboo Flooring is the most popular flooring choice on the market, Due to it being environmentally sustainable ,hardness and durability ( twice as hard as jarrah ) and budget ,there is a wide choice of colour to suit all decors,

## CORK TILES ( FLOATING OR DIRECT STICK TRADITIONAL )

Cork tile are back in fashion, and give the home a warm feeling and softness as well , cork comes in many colours , plus there is even a pre finished cork floating floor that can be install as a floating floor a great alternative to traditional cork installations.

Quickstep laminate floors.

Quickstep is a world leader in laminate flooring for quality and range of flooring solutions .

Laminate floors are the perfect choice for hard wearing areas .you see all timber floors have just a paint on the and this need maintenance , but laminate floors have a extremely hard wearing Melamine Coating witch will last for the life of the product . The laminate floor is made from a high density fiberboard the a printed photograph then the melamine coating witch are warranted for up to 25 years so for a low maintenance flooring choice that always looks good and economical laminate is the perfect choice

## Sanding and Polishing Floors

We offer Sanding and Polishing for all timber flooring

Sanding of old Baltic pine flooring and restoring them to near new condition

- Floating timber floors
- Parquetry floors

- Cork Tiles
- New and old flooring of all species

## **FINISHING PRODUCTS**

We offer many different coatings to finish your flooring the way you want

- Water-based polyurethane coatings
- Solvent based coatings
- Oil based coatings

Direct stain and wood washing your floor is also becoming very popular and is available in a colour to suit your home

## **DUSTLESS FLOOR SANDING**

We offer the latest dustless machines, the term dustless does not mean the sanding process is dustless, but the amount of dust that is left in your home is quite minimal, you will only require a general clean and you will be able to move straight in.

## **FLOOR COVERINGS**

We offer a removal of existing floor coverings and disposal service as well so you dont have to worry about a thing, we will do the total flooring package to suit your needs.

Our company is based on the belief that our customers' needs are of the utmost importance. Our entire team is committed to meeting those needs. As a result, a high percentage of our business is from repeat customers and referrals.

We would welcome the opportunity to earn your trust and deliver you the best service in the industry

## PARQUETRY FLOORS

are a unique way to transform your home with the class of a solid timber parquetry floor , Parquetry comes in many timber species and you can choose from many patterns of installation & custom Borders as well

## ReadyFlor Floating Floors

Readyflor is Australia's best selling engineered flooring.

The range of timber is Australian and imported timbers.

The flooring comes with a life time structural warranty.

And has the patented uniclic locking system.

Readyflor can also be directly be glued to the sub floor.

## Environmentally Friendly

Readyflor's core is made from a waste product, which is usually burnt, so instead of wasting it, Readyflor uses it as a hard wood core.

## Construction

Readyflor has 3 layers

Constructed each layer is fused in opposite grain direction to give exceptional stability.

## Top layer

The top layer of timber is a hardwood with 6 coats of scratch - resistance uv lacquer for exceptional wearing capabilities it can be re-coated and resanded.

Ideal for residential or commercial application.

# Dolphin Waterproof Laminate Floors Adelaide

The New Range of Dolphin Laminate Flooring that Fully Waterproof THATS RIGHT FULLY WATERPROOF.

Just imagine sitting in the lounge room, and you hear water running and think is it raining, but then you realise you left the tap running in the kitchen, you rush out to find water all over the kitchen floor and think, well I will have to replace my laminate floor because it is now going to be ruined by water damage.

But then you remember that you installed a Dolphin Waterproof laminate floor so your floor will not be damaged at all all you have to do is mop it up and get back to enjoying your day.

Dolphin Waterproof laminate Flooring is identical to normal flooring but has been designed for wet areas like Bathrooms, Laundrys, Kitchens & any rooms that may come in contact with water.

- Safety, Dolphin Flooring has a increased fire Retardancy
- Enviromentally Friendly, Totally Emissions Free & 100% FSC
- Termite & Mold Resistance, Dolphin Panel ( VITEC) is mold & termite resistand.  
Destroying Insects & Decay causing micro organisms do not recognise Vitec as being a food source
- Water & moisture Resistant, The Dolphin Panels have been modified at a cellular level by vitec technology and each panel has structural memory. Which means it wont peak or buckle when exposed to high moisture or Climatic variations, Even after severe flooding it returns to its original form , Ensuring you never have to worry about any spillage of liquids.
- Durable & Hardwearing, Surface Density in excess of 1000 kg/m<sup>3</sup> . Ideal for areas frequently used . Its high durability allows it to withstand daily wear and tear, Even Stiletto Heels , while stills preserving its stunning finish.
- 12 colours to choose from to suit every Decor.

Dolpin Laminate Flooring has Just been Released in South Australia & is becoming very popular with Adelaide home owners & for good Reason so please give use a call or pop into our Showroom to see and experience the new Waterproof Laminate Flooring Range, you will say why didnt anyone think of this before.
