

Collapsible Crates

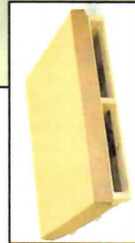

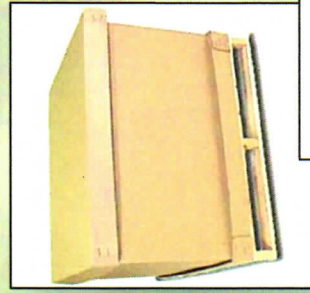

Our custom **collapsible and reusable** crates use a latching system. Perfect for trade shows and for storage, these collapsible crates are very durable, cost effective and easy to store.

Corrugated Boxes

We are pleased to announce that we now offer corrugated boxes. They are light weight but heavy duty and help reduce shipping costs. Fully customizable to nearly any size, we offer single, double or tri-wall cardboard as well as wood pallet bases for ease of transportation for heavier boxes. We also have standard size, fully collapsible bulk shipping kits ready for you to unfold and load for shipping.

Our History

Our incredible story began in 2006, with little more than \$200 in our pocket, we started building shipping crates in our garage, and made deliveries using the family SUV. Years of hard work and extreme determination have resulted in tremendous growth. We now have state of the art design software as well as a full staff of skilled carpenters and craftsmen meticulously filling every order from our newly expanded production facility. We are still hands-on from the time a crate is designed to the minute that it ships. We are proud to be a woman-owned small business that is anxious to serve you.

A Woman-Owned Small Business

We solve customer's product crating and storage problems! Our services include wood shipping crates, military crates and road cases. Beginning with no-cost design and consulting services, we suggest ways to improve a container's performance. Our modern facility and experienced staff provide fast delivery of all sizes and quantities of high-quality products. IPPC certification allows us to also provide crates that deliver international shipping solutions.

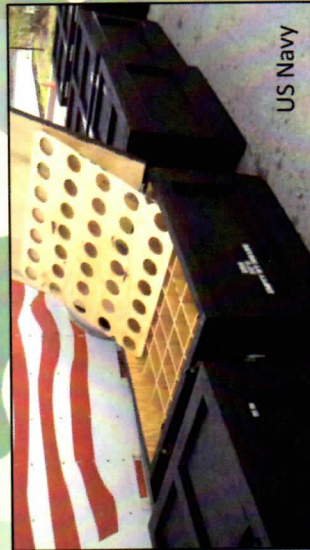

Military Crates

MILITARYCRATES.COM, a division of wood-shippingcrates.com is proud to supply shipping crates to the U.S. Navy, Army, and military contractors. Our ruggedized military-grade crates are very popular due to their excellent performance under extreme conditions.

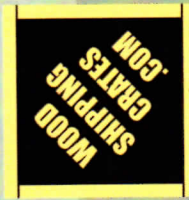

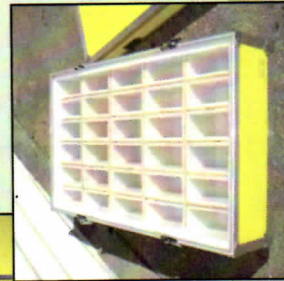

Fort Knox crates

Road Cases

The newest addition to our product line is the custom road case. All road cases are built to your exact specifications, with many options available both inside and out. These can be laminated for extra durability or painted any color you like. We use all aluminum hardware for years of repeated use. We also offer foam lining to protect your precious cargo as well as dividers and compartments to make loading and shipping your valuables safer.

Industrial Crates

All of our quality products are built with lumber that is ISPM 15 Heat Treatment Certified.
