

① Countries need updating per spreadsheet
- if map not feasible, flags

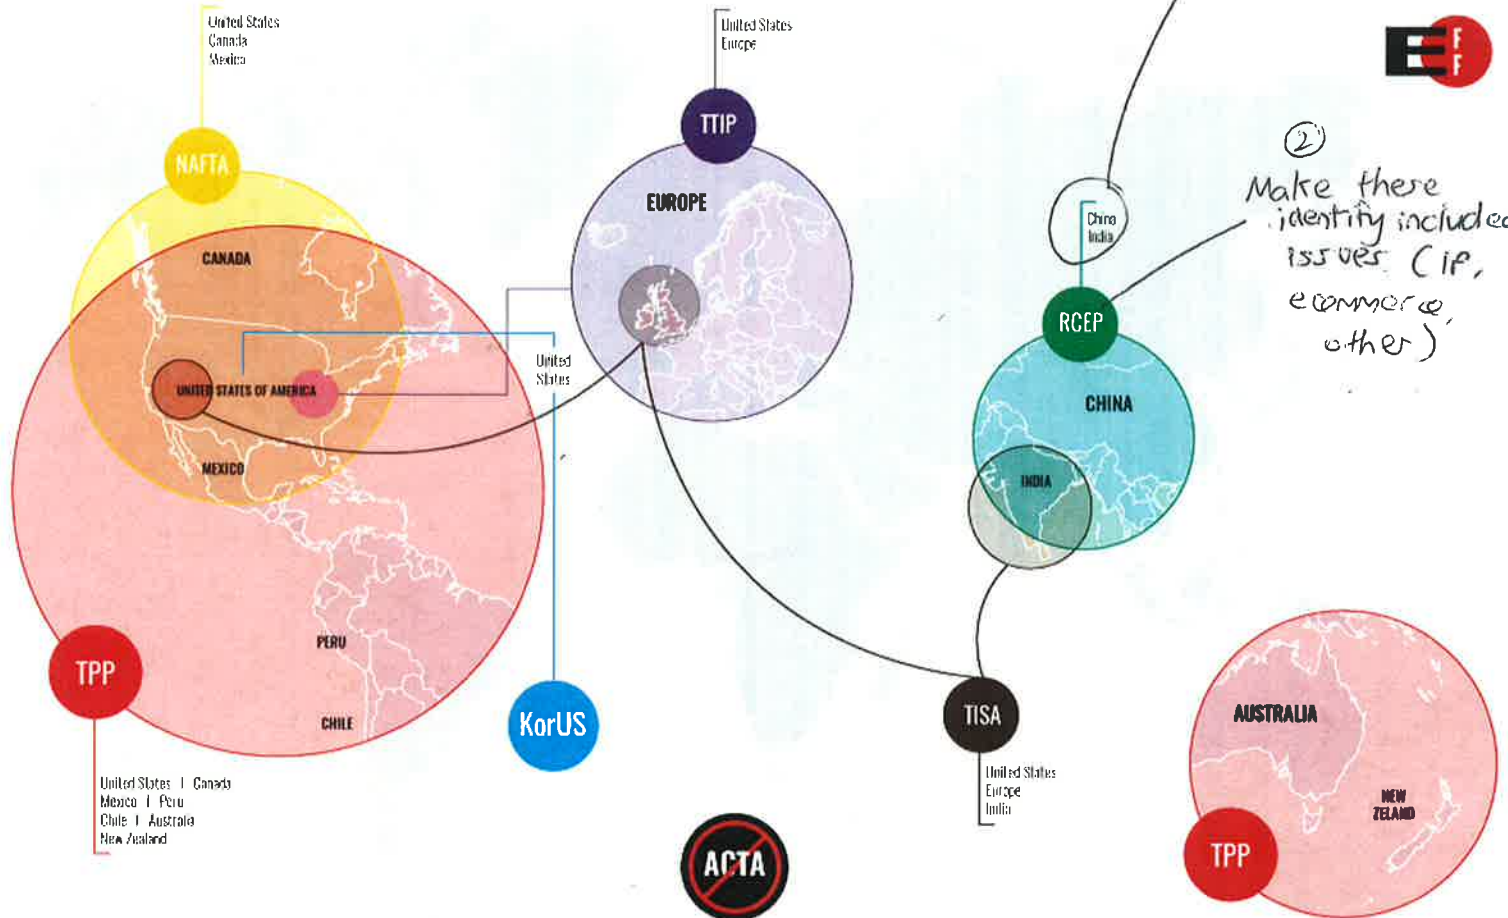

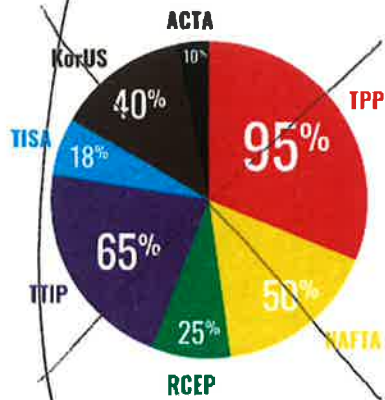

② Make these identity included issues (IP, e-commerce, other)

③ Move to side & add notes

might have all of the **ISSUES** except for broadcasting and all of the **PARTIES** except for Europe.

might not include any of the IP issues and does include Europe.

IP (sub-issues: copyright law, criminal enforcement, civil enforcement, DRM, trade secrets, broadcasting)

e-commerce

(sub-issues: source code, data localization, safe harbors, data flows, net neutrality, crypto, domain names)

other

(sub-issues: ISDS, telecommunications)
