

*"At Cosmo Lighting Baulkham Hills we excel in the supply and design of lighting for residential homes, clubs, hotels, resorts, apartments and shopping centres. Our strength is our creativity and our ability to think outside the box. We regularly collaborate with designers, architects and clients to help them realise their vision and when required we can custom make light fittings to suit our clients' dream. All this can be achieved whilst still being mindful of todays rising electricity costs and with the advent of energy saving LED lighting we can design a lighting plan that will reduce your lighting costs by up to 80%"*
