

# Turn Innovation into Tangible Results

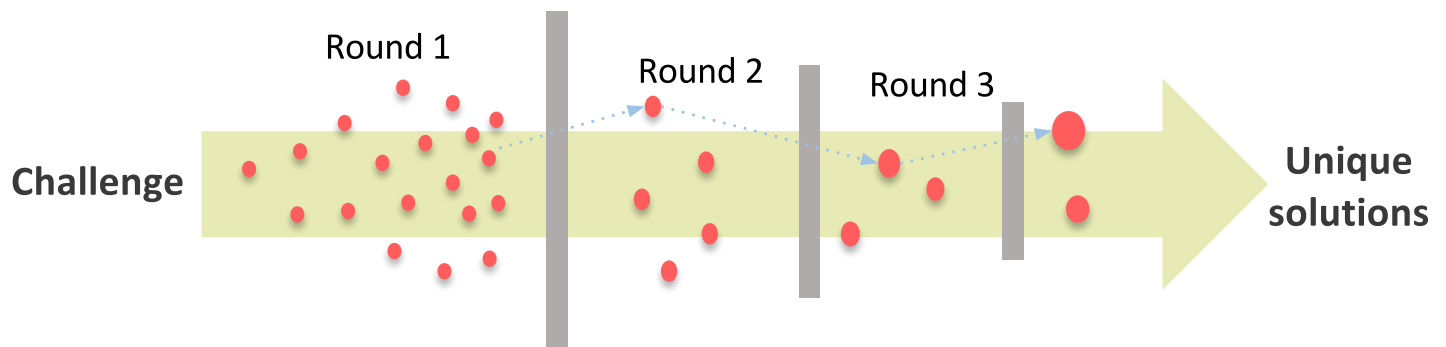

- Automotive Manufacturing flexibility increase ~ 100%
- Industrial building assembly speed increase ~ 500%
- Procurement cost reduction ~ 50%
- Logistics cost reduction ~ 25%

## What can you expect from us?

## How do we drive the process?

## Success cases:

**The challenge:** Recover water from steam at plasterboard manufacturing plant with an effective solution.

**The solution:** Water consumption in manufacturing reduced by 50 - 60%

**The challenge:** Monitoring real charge status of batteries in photovoltaic systems with a low cost, low consumption solution.

**The solution:** IoT design with a cost of < 20€ / unit
