

Your Cloud Delivery Partner

hSo has built an innovative, large-scale platform so you don't have to build your own.

Our network, communications and computing platforms, combined with our committed service, will let your business applications run more smoothly, securely and continuously.

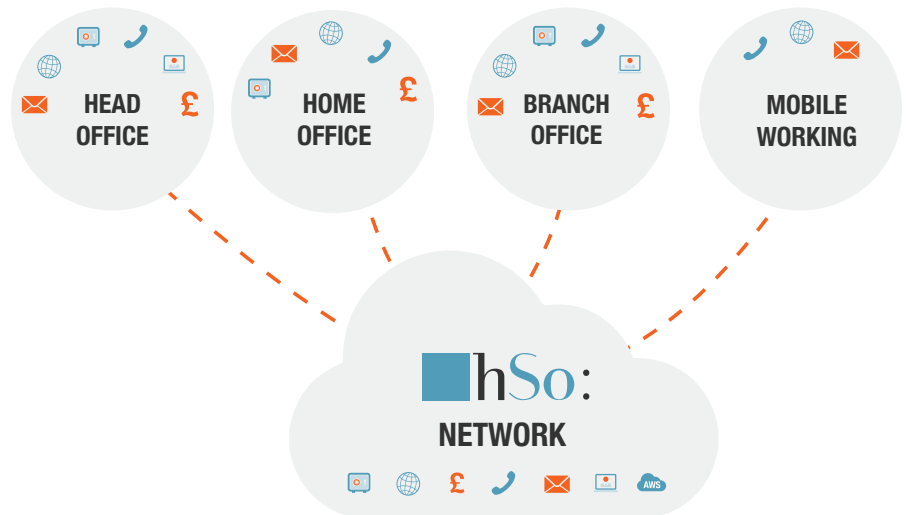

We tailor our services to create a solution to meet your business requirements and budget.

Our UK-based, 24/7 Network Operations Centre proactively monitors your services.

hSo is carrier independent. We'll use the best carrier for your location and integrate a single solution.

- Internet
- Email
- Storage & Backup
- IP Telephony
- Office Apps/Financial/Software/CRM/ERP
