1. You should be redirected to this screen. You can change the date range in the upper left corner or filter out results by typing into the boxes
2. To change your password, click on the underlined TideValet logo

1. You will be redirected to our home screen, and you can see you are logged in under your account in the top right
2. Click on Edit My Profile, and it will take you to the backend where you have the option to change your password

1. Scroll down to the bottom, and you will see an option to generate a new password.
2. After picking a new password, click the update profile button on the bottom left. You may have to check a box that appears under the generated password confirming you'd like to use it.
3. After you update the profile, the page should refresh and confirm that the profile was updated.
