CHERRY BOMB

## ORGANIC GARDENER'S

*Sumatra, Ethiopia, Honduras*

Sumatran coffees have always had a place on our coffee menu for their unique colour, processing and delicious chocolate body.

The 'Organic Gardener's Blend' aims to highlight this rich, distinctive chocolate character, while the Honduran bean provides a clean fresh note throughout.

## THE MERC

*India, Ethiopia, Guatemala*

'The Merc' pays homage to the Mercedes workshop that originally inhabited what is now our beautiful roastery space. For this blend, we selected a fine leathery character as a base, to reflect the workmanship of the Mercedes Benz. It's a lighter roast, so the zippy stone fruit of the Ethiopian bean, and raisin-like acidity of the Guatemalan balance nicely.

## CHERRY BOMB

*Ethiopia, Brazil*

We're not shy to admit that we have a love affair with Ethiopia, the birthplace of coffee.

This aromatic blend brings together both washed Grade 1 and natural processed Ethiopian coffees. The addition of a natural processed Bourbon variety from Brazil helps to balance the rich body of the Ethiopian bean, while also showcasing its sweetness.

Great for all brewing methods.

## STORE KEEPER'S

*Brazil, Guatemala, PNG*

Our signature blend at Rainworth General is the culmination of 8 years of learning. It's our most popular blend, producing a smooth salted caramel body with a delicious fruit drop in the bottom of the cup. With delicate floral notes of jasmine and rose, it drinks best when it's had over a week to rest. Best enjoyed as a ristretto.
