

INSTRUCTIONS:

Hi! I need a BEAUTIFUL, very professional looking Hardcover book cover. This is my first real hardcover book, and it is going to be really big - it will most likely be on all the major news stations and media outlets, so it needs to be a really really beautiful and stunning looking book cover. I hope you can bring my vision to life! The book is kind of a throw-back to "the good old days," and it's kind of a controversial title. Please keep this 100% confidential until the book goes on pre-sale.

Here's the SPECS:

TITLE: Making Love Great Again!

SUBTITLE: *The New Road to Reviving Romance, Navigating Dating & Winning at Relationships*

AUTHOR: DeAnna Lorraine

pages: 227

Cover size: 6x9"

OTHER DETAILS FOR THE VISION:

I am thinking that the "GREAT" letters in the title to be shimmering "glossy"-looking GOLD (if it looks good). And perhaps the other colors in the title to be like American flag tone of "glossy"-looking RED. (I am not certain this will look good though when all is said and done.. So I leave these details up to the designer because professional designers know color combinations etc better than me.) I want the background image to be black and white, and my image in the red dress to be in front.

*I have created a few different mock-ups of the cover, just so you have an idea from which to work off of. See these mock-ups attached. But, PLEASE make your version look much more stunning and beautiful and classy. I trust you with your artistic vision and talent, and design skills which I don't have.

I also am attaching another document of a few book covers that I liked the style in, perhaps you can get ideas from them.

*also, is there any way you can add like a waving American flag somewhere near the top corner of the book looking like its waving in the distance or slightly falling, or something? I just want it to look really cool but not have the american flag take over much of the cover. Just a bit on the top in the distance, if you can think of a creative way to fit it in or blend it...

*Also, can you create 2 different versions - one version with the 2 different black and white pictures (attached), and then alternating with the 2 red dress pictures? Please see mock-ups for what I'm talking about. Let me know if you have any questions. Thank you!

All pics are attached here (the only piece that is optional is the American flag waving in background or at the top... you do not HAVE to use this specific flag pic.. If you can find a better flag pic, or if you even think that a flag in the background would look too busy and too much, we don't necessarily have to put it in there. Maybe try 1 version of it in and 1 version without or something? I'm just not sure how it'll all look in the end) Thank you!
