

# AUTO GLIDE AWNINGS

STAN **BOND**

Classic, functional and attractive, Stan Bond Auto Guide Awnings are custom manufactured in your chosen canvas or mesh fabric.

As well as enhancing the visual impact of your home, these awnings have a number of distinct benefits:

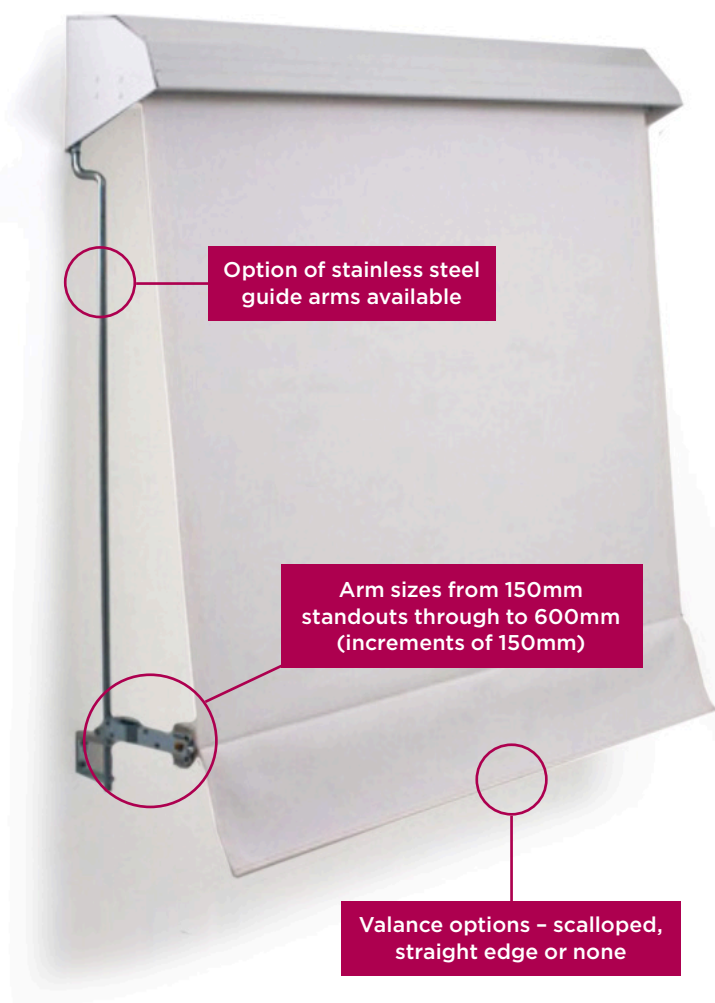

- ▶ Save on your energy costs, by reducing the amount of heat transferred into your home through the windows
- ▶ Shade your windows, while maintaining some flexibility of airflow and vision
- ▶ Huge range of fabrics to choose from – serving different purposes and budgets
- ▶ Large range of hood colour options, specially selected to suit the most common external paint colours
- ▶ Reduce UV damage to carpets and furniture
- ▶ Corrosion-free metal parts
- ▶ Low maintenance – strong, durable and built to last
- ▶ Perfect for ground floor windows and narrow walkways

## FABRIC SPECIFIC BENEFITS

- ▶ Our high quality polyester and cotton blend canvas offers complete block out
- ▶ Acrylic fabrics are semi-translucent, allowing some see through while blocking heat
- ▶ These fabrics are treated to be resistant to mildew, easy to keep clean
- ▶ Our mesh fabrics are UV treated, lead free easy to clean and allow air flow

## OPERATING THE AWNING:

- ▶ Adjusted by guiding the arms up and down rails fitted flush to wall
- ▶ Adjustable level for the awning, depending on angle of sun, with an auto lock
- ▶ Operated by hand from outside
- ▶ Very strong construction offers high wind resistance

## WHY STAN BOND?

- ▶ Family owned and operated for over 45 years
- ▶ Proudly South Australian, employing South Australians
- ▶ We never stand still – always looking for new, innovative ways to add value
- ▶ We offer affordable solutions to a broad range of requirements
- ▶ While maintaining excellence in materials and manufacture
