

NEIGHBORHOOD NOTICE!

Another Star Solar Energy solar integrated roofing system is being installed in your neighborhood!

We are proud to share that someone in your neighborhood is installing a new solar integrated roofing system. At Star Solar Energy, we take pride in installing the highest quality solar systems that in turn not only save energy and money for the owners but also help conserve our natural environment as a whole.

During installation, there may be noise and dust. If at any time you experience discomfort, please let our on-site supervisor know. We want to make the experience of installing this solar roofing system easy and non-obtrusive for the owners and the neighborhood as a whole. Thank you for your patience and understanding.

If you are interested in the installation of a solar roofing system for your home, please let us know..

This Neighborhood Notice has been created in conjunction with Star Solar Energy and EagleView Technologies, the Independent Standard for Aerial Roof Measurement Reporting.
