Welcome

Cambryn Biologics (CBL) is a Contract Manufacturing Organization (CMO) located in Sarasota, Florida. CBL is currently in the process of commissioning a state-of-the-art biological manufacturing facility using the Hynetics - Single Use Disposable Plastic Bags which reduces risks of cross-contamination between batches. CBL has a fully equipped Quality Control laboratory and Process Development Laboratory.

CBL's core expertise is in plasma derived components for the human, veterinary and diagnostic market. The nature of its facility will allow to evaluate other biological based raw material for extraction and purification.

Our facility is ideal for GMP components for pre-clinical, clinical and commercial launch production.

For additional information, please contact us with your project.
