

Gourmet
FAIRY FLOSS
MADE WITH ORGANIC SUGAR

Welcome to Fluffy Crunch

What started as a part time experiment at the local markets has evolved into a full time business venture for the husband and wife team, Michael and Paola Karamallis, who have experienced huge demand for their gourmet fairy floss range.

Fluffy Crunch is a fun, flavour packed experience that will get your inner child screaming for more.

Starting with organic raw sugar, our soft, cloud like bundles of joy are brought to life by intertwining some unexpected ingredients like freeze dried fruit and powdered toppings to create a symphony of flavours, that will make you never look at fairy floss the same way again.

So what makes Fluffy Crunch gourmet?

Well to start with, we use 100% organic raw sugar, which is derived from sugar cane that was grown without any synthetic herbicides or pesticides. The sugar is refined less, which gives it a more pronounced molasses aroma and flavour.

We take it one step further by using freeze dried fruit in some of our creations to add that extra burst of flavour and crunch. We also use fun topping like cookies, honeycomb, popping candy and edible glitter to create a fun, flavour packed experience that will continue to surprise and bring joy to people of all ages.

We also have a selection of creations that have no added colours. All colours are free from animal products and most creations are Vegan Friendly & Gluten Free.

Gourmet
FAIRY FLOSS
MADE WITH ORGANIC SUGAR
