Summer Holiday Meals

Summer Holidays has finally approached us. At this time of the year it is very common for company chefs/cooks to take some well deserved time off.

Nurseries often struggle to cope with the cooking at these holiday times. That's where Lunchbox catering comes in to save the day.

We deliver hot food to nurseries and businesses predominantly in and around Greater London area and were expanding all the time.

Give us a call to discuss our seasonal menu, prices, and availability & see if we can cover your area today.

With all our food prepped & cooked freshly in house, You will not be disappointed!!!

We offer an affordable friendly professional service that does not scrimp on quality. We feel that all persons should have access to great tasting food without breaking the bank - and that includes our children
