

MAKE THESE CHANGES

This is an About Us page.

Use this wording:

Jeanette Christian has been designing homes for over 25 years. She has done commercial and residential projects in California, Montana, Washington, Chicago and Hawaii. Specializing in custom homes, Jeanette created a way to document the interior backgrounds and hard surfaces for the client to be able to see what their project would look like and ultimately, show the contractor what to build.

Jeanette is a Professional member of ASID, is NCIDQ certified, and also certified in California.

Her staff is experienced in this method and has worked with her for over a decade.

I would prefer the grey color to the black.
