

# TAKE10

*When it's time to assess and evaluate your construction accounting software...*

**Take 10 minutes** to reflect on your frustration level with your current software systems and then simply contact us to discuss ideas and solutions for enhancing your software usage.

## Reshaping Accounting Software and Mobile Technology Implementations

**ProCon Solutions** works with construction business owners, managers & IT professionals to strengthen software usage and increase user productivity.

We begin with a simple discovery call at no charge to see how we can work together.

Our construction accounting, job cost and field management software clients engage with us in the following areas:

- Software Re-Implementations
- Redesigning Software Usage at the User Level
- Project Coordination & Management
- Continued Software Support
- New Software Evaluation & Installations
