

Your phone system doesn't have to be lame.

RADVOX's radical hosted VOIP solution RADVoice is setting the new standard for enterprise grade voice

What puts the Rad in Radvox, Simplicity. **DESIGNER – BIG SELLING POINT, needs to stand out and be consisted with design on the previous page.**

- No contracts
- No upfront costs or hidden fees
- Free installation
- Free lifetime training & support

Super Duper Simple (SDS):

- Set-up:
 - Simple user discovery process, custom provisioning to your needs
- Installation:
 - Virtually plug & play, your custom configuration up and running in minutes
- Training:
 - Simple, intuitive training to allow you to focus on your business. On the web, over the phone, or in person
- Management:
 - Access and manage from any web enabled device, tablet, or P.
- Support:
 - Support that matches your business needs 24/7/365. We take care of our customers. Plain and simple.
- Scalability
 - Add users and features to grow with your business

Make your phone system not lame with RADVoice: a radically simple way to communicate! **DESIGNER – this table needs to be made more visually appealing, below was simply a quick mock up.**
